

# Learning Modules - Activating Icons

When constructing Learning Modules, giving pages certain names will automatically activate corresponding icons **on all other pages in the module**. When viewing pages in the Learning Module, these icons act as automatic links - by clicking on an icon the viewer will immediately be taken to the page of the same name.

These page names/icons are:

- home
- menu
- info
- glossary
- teacher
- student
- sena
- textonly
- help

*In order to function correctly, the pages must be named in exactly this manner - including the lower case style*

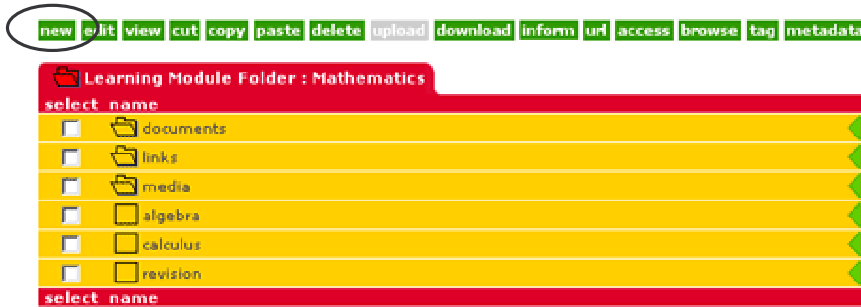

## Creating an 'Icon' page

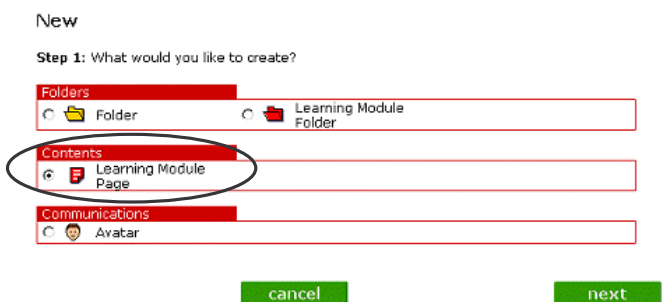

1. Open the learning module folder you wish to create pages within, by clicking on it

2. Once inside the folder, click **new**

3. Select 'Learning Module Page' and click **next**

# Learning Modules - Activating Icons

4. Name the Learning Module Page 'home' **all lower case** in order to activate the 'home' icon on the bottom of the other pages in this module folder. Click **next**

New >  Learning Module Page

**Step 2:** What would you like to call it?

In which folder should this be created?

**browse**

**cancel**

**next**

5. Select the page template you require and click **edit**

New >  Learning Module Page

**Step 3:** Which page layout would you like?

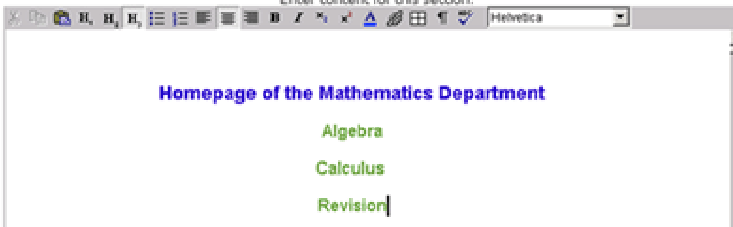

- plain page
- 2 rows
- 2 columns
- 2 columns (narrow & wide)
- 2 columns plus top & bottom rows
- 2 rows of 2 columns
- 2 columns plus top & bottom rows
- 2 columns (narrow & wide), first with 2 rows

6. Edit the page as required

**save & quit** **save & view** **insert** **edit page**

Frame this section with:

Enter content for this section:

The screenshot shows a web editor interface. At the top, there are four buttons: "save & quit", "save & view", "insert", and "edit page". Below these is a dropdown menu for "Frame this section with:" set to "Nothing!". The main editing area has a toolbar with various icons and a font dropdown set to "Helvetica". The content of the page is as follows:

**Homepage of the Mathematics Department**

Algebra

Calculus

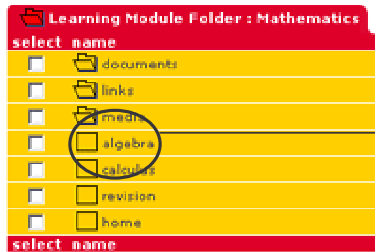

Revision

7. Click **save & view** when you have finished editing the page

# Learning Modules - Activating Icons

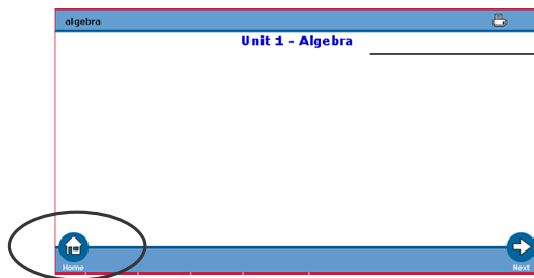

## Viewing the Icons

All pages in the same Learning Module folder as the 'icon' pages created, will display the icons. Clicking on an icon will take you to the page of the same name

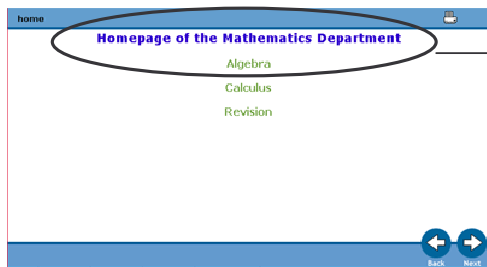

A regular page in a Learning Module - folder view

- note the 'home' page in this folder

The same Learning Module page - front-end view

- note the 'Home' icon, bottom left

Clicking on the 'Home' icon on the page above will open the page of the same name

- note that there is no 'Home' icon on the page of the same name

The style of the icons will vary depending on the frame style you have chosen to use for the Learning Module. The frame style in the example on page 1 is 'Blue', whilst the Learning Module below is in the 'Spheres' frame style.
