 Delete

2. This takes you to the FCK editor. Select **Page Properties**.

3. In the new window that appears you will see the options to change the page title and the style and section colour and style.

Page Title

Page Title:

Changing the page title will reflect in the folder listing and display at the top left-hand corner of the Learning Module Page.

Page Style

Page Style:

The page style is the frame, which surrounds each page, there are many to choose from for added individuality.

Section Style

Section Style:

The section style is the area around the object(s) within the page, creating a border or to highlight the contents.
